

Table 2 provides a summary guide to the uses to be considered compatible on lands under Williamson Act contract located in the CA-District. The list of uses below is based on the zoning ordinance for the CA-District. Where a use is required to meet the specific standards for that use, it is necessarily more restrictive than that allowed under the zoning ordinance. Other requirements identified in Uniform Rule 2 also apply. Uses not allowed on contracted land in the CA-District are listed at the end of this table.
